**UNAUDITED QUARTERLY REPORT ON FINANCIAL RESULTS FOR THE FIRST QUARTER ENDED 31 MARCH 2018**

---

**A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT – FINANCIAL REPORTING STANDARD**

**A1. BASIS OF PREPARATION**

The unaudited quarterly financial statements have been prepared in accordance with MFRS 134: *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board (“MASB”), and Paragraph 9.22 and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The unaudited quarterly financial statements should be read in conjunction with the Group’s audited annual financial statements for the financial year ended 31 December 2017. The audited financial statements of the Group for the year ended 31 December 2017 were prepared in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The accounting policies and presentation adopted by the Group for the quarterly financial statements are consistent with those adopted in the Group’s consolidated audited financial statements for the financial year ended 31 December 2017, except for the adoption of the following:

(i) Effective from financial year beginning after 1 January 2018

- Amendments to MFRS 140 ‘Classification on “Change in Use” – Assets transferred to, or from, Investment Properties’ clarify that to transfer to, or from investment properties there must be a change in use. A change in use would involve an assessment of whether a property meets, or has ceased to meet, the definition of investment property. The change must be supported by evidence that the change in use has occurred and a change in management’s intention in isolation is not sufficient to support a transfer of property.

The amendments also clarify the same principle applies to assets under construction.

- IC Interpretation 22 ‘Foreign Currency Transactions and Advance Consideration’ applies when an entity recognises a non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. MFRS 121 requires an entity to use the exchange rate at the ‘date of the transaction’ to record foreign currency transactions.

IC Interpretation 22 provides guidance how to determine ‘the date of transaction’ when a single payment/receipt is made, as well as for situations where multiple payments/receipts are made.

The date of transaction is the date when the payment or receipt of advance consideration gives rise to the non-monetary asset or non-monetary liability when the entity is no longer exposed to foreign exchange risk.

If there are multiple payments or receipts in advance, the entity should determine the date of the transaction for each payment or receipt.

An entity has the option to apply IC Interpretation 22 retrospectively or prospectively.

- MFRS 9 ‘Financial Instruments’ will replace MFRS 139 ‘Financial Instruments: Recognition and Measurement’.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income (‘OCI’). The basis of classification depends on the entity’s business model and the cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity’s own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch prospectively.

MFRS 9 introduces an expected credit loss model on impairment that replaces the incurred loss impairment model used in MFRS 139. The expected credit loss model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

In relation to MFRS 9 ‘Financial Instruments’, the Company expects the adoption of the above standards and interpretations will have no

material impact on the financial statement in the period of the initial application.

- MFRS 15 'Revenue from contracts with customers' replaces MFRS 118 'Revenue' and MFRS 111 'Construction contracts' and related interpretations. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services.

A new five-step process is applied before revenue can be recognised:

- Identify contracts with customers
- Identify the separate performance obligations
- Determine the transaction price of the contract;
- Allocate the transaction price to each of the separate performance obligations; and
- Recognise the revenue as each performance obligation is satisfied.

Key provisions of the new standard are as follows:

- Any bundled goods or services that are distinct must be separately recognised, and any discounts or rebates on the contract price must generally be allocated to the separate elements.
- If the consideration varies (such as for incentives, rebates, performance fees, royalties, success of an outcome etc), minimum amounts of revenue must be recognised if they are not at significant risk of reversal.
- The point at which revenue is able to be recognised may shift: some revenue which is currently recognised at a point in time at the end of a contract may have to be recognised over the contract term and vice versa.
- There are new specific rules on licenses, warranties, non-refundable upfront fees, and consignment arrangements, to name a few.
- As with any new standard, there are also increased disclosures.

Under MFRS 15, the Company recognises revenue when a performance obligation is satisfied which is when the control of the goods and services underlying the particular performance obligation is transferred to the customers. Given the scope of work required to implement the recognition and disclosure requirements under the new standard, the Company has performed the assessment using the 5-step model. Based on work performed to date, the Company does not currently expect the impact of these changes to be significant.

(ii) Effective from financial year beginning on or after 1 January 2019

- MFRS 16 “Leases” supersedes MFRS 117 “Leases” and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a “right-of-use” of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 ‘Property, Plant and Equipment’ and the lease liability is accreted over time with interest expense recognised in the income statement.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

- IC Interpretation 23 ‘Uncertainty over Income Tax Treatments’ provides guidance on how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment.

If an entity concludes that it is not probable that the tax treatment will be accepted by the tax authority, the effect of the tax uncertainty should be included in the period when such determination is made. An entity shall measure the effect of uncertainty using the method which best predicts the resolution of the uncertainty.

IC Interpretation 23 will be applied retrospectively.

The effect of the above amendment to published standard is currently being assessed by the Directors.

## A2. AUDIT REPORT OF PRECEDING ANNUAL FINANCIAL STATEMENTS

The audit report of the Group’s Annual Financial Statements for the year ended 31 December 2017 was not subject to any qualification.

## A3. SEASONALITY OR CYCLICALITY OPERATIONS

The Group’s operations are not significantly affected by any seasonal or cyclical factors.

A4. UNUSUAL ITEMS

There were no items affecting the assets, liabilities, equity, net income, or cash flows that are unusual because of their nature, size, or incidence.

A5. MATERIAL CHANGES IN ACCOUNTING ESTIMATES

There were no changes in accounting estimates of amounts reported in prior interim periods or the current financial year or changes in estimates of amounts reported in prior financial years.

A6. ISSUANCE OR REPAYMENT OF DEBTS AND EQUITY SECURITIES

There were no issuance and repayment of debts and equity securities, shares buy-back, share cancellations, shares held as treasury shares or resale of treasury shares during the current quarter under review.

A7. DIVIDEND PAID

No dividend has been paid for the current quarter. The interim dividend in respect of financial year ended 31 December 2018 has been recommended as per Note B12.

A8. SEGMENTAL REPORTING

Segmental information is not presented as the Group is primarily engaged in the sale of information technology products and related services in Malaysia.

A9. VALUATIONS OF PROPERTY, PLANT AND EQUIPMENT

The values of property, plant and equipment have been brought forward without amendment from previous annual financial statements.

A10. SUBSEQUENT MATERIAL EVENTS

There were no subsequent material events as at the date of this report that will affect the financial results of the current quarter under review.

A11. CHANGES IN THE COMPOSITION OF THE GROUP

There were no significant changes in composition of the Group during the interim period, including business combination, acquisition or disposal of subsidiaries and long-term investment, restructurings or discontinued operations other than those disclosed as follows:

Mesiniaga SSO Sdn Bhd, the wholly owned subsidiary of the Company had commenced the process by way of members' voluntary winding up, as per announcement to Bursa Malaysia Securities Berhad on 8.11.2012. The process of voluntary winding up cycle is pending to be completed.

A12. CHANGES IN CONTINGENT LIABILITIES OR CONTINGENT ASSETS

There were no contingent liabilities or contingent assets to be disclosed.

**B. BURSA MALAYSIA LISTING REQUIREMENTS**

**B1. REVIEW OF THE PERFORMANCE**

The Group recorded revenue of RM37.6 million for first quarter ended 31 March 2018, a reduction of 15.1% compared to the corresponding period in 2017 of RM44.3 million. Profit before tax of RM0.9 million was recorded in the first quarter of 2018, a reduction of 17.5% compared to RM1.1 million in the previous corresponding period.

The reduction in revenue is mainly due to lower contribution from telecommunication sector.

**B2. MATERIAL CHANGES IN THE QUARTERLY RESULTS**

For the quarter ended 31 March 2018, the Group recorded revenue of RM37.6 million, compared to RM60.5 million in the preceding quarter. The Group recorded a profit before tax of RM0.9 million in the current quarter, compared to a profit of RM7.4 million in the preceding quarter.

The current quarter revenue decrease of 37.9% was due to lower contribution from telecommunication sector, and the deferment and loss of some projects. In addition, the Group's first quarter revenue historically is lower as compared to 4<sup>th</sup> quarter of the year.

The profit before tax for the 4<sup>th</sup> quarter of 2017 included RM6 million profit from the disposal of a property.

**B3. PROSPECTS**

The IT industry is expected to undergo consolidation as evolving technologies, change of government and on-going competition, both existing and new, bring forth threats and opportunities to the IT industry.

Although government spending is expected to remain prudent in 2018, we remain optimistic of our growth plans, especially for the Enterprise and Public Sector business. To achieve this, we will continue to leverage on our differentiated products and services - Mesiniaga Integrated Managed Services, to increase our win rate and to help us focus on our key customers.

**B4. VARIANCES FROM PROFIT FORECAST AND PROFIT GUARANTEE**

Not applicable as there were no profits forecast and profit guarantee published.
